Experience

Full Stack Software Engineer — HEVEAHILL TECHNOLOGIES
Kannur, India
April 2023 – Current

Although my designation in the current company is Full-stack Software Engineer, I work here as a React Native developer.

I manage the entire lifecycle of every React Native project — developing, optimizing, unit testing, and delivering the product to the Play Store and App Store. Also perform the role of Team Lead as well.

I am currently working on a Flutter-based project called VoxRing.ai

Projects: The Leads App, Recovery International, VoxRing.ai,

.

React Native Developer — NETSTAGER TECHNOLOGIES
Calicut, India
March 2022 – March 2023

Project: The Story Cabinet

This app was developed exclusively by me.

React Native Developer — SPROUTHEAD SOFT
Calicut, India.
August 2021 – February 2022
